

Mobile Unit

Why go mobile Avantica?

- In-depth experience on all major platforms including iOS, Android, BlackBerry, Windows Mobile and HTML5.
- Proven success working effectively with mobile project constraints and shorter development cycles.
- Total solutions covering interface design, mobile development and server-side implementations.

Avantica Mobile Unit

- Highly trained professionals in Costa Rica and Peru.
- Our engineers have multi platform training, each of them mastering 2 or 3 platforms, which gives us high flexibility in project allocation.
- 3+ years of development experience in iOS, Android, BlackBerry, HTML5 and Windows Mobile.
- Experience in mobile device oriented websites.
- We publish your app and give full support to our customers orienting them on what to use and avoid to guarantee a fast approval of their apps.

Avantica Mobile Unit

- We have all the necessary infrastructure for optimal development: PC, Mac, phones, tablets, etc.
- We constantly update our device inventory, getting the latest models as soon as they hit the market to be up to speed with our customer's needs.
- Avantica also offers information architecture services and graphic design.
- Our usability expert provides guidance and support generating graphic assets to guarantee optimum results in interface design and user experience.
